NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pondera County, Montana, as follows:

1. The Board opposes the 30 x 30 program, including its objective of permanently preserving 30 percent of the Nation's lands in its natural state by 2030, or any similar program that will set aside and prevent the productive use of millions of acres of our lands.
2. The Board further opposes the designation of public lands and national forests in Pondera County as wilderness, wilderness study areas, wildlife preserves, open space, or other conservation land, thereby restricting public access to such lands and preventing the development and productive use of the resources on or within such lands.
3. The Board supports the continued management of the public lands and the national forests under principles of multiple use and sustained yield, recognizing the Nation's need for domestic sources of minerals, energy, timber, food, and fiber, and in careful coordination with Pondera County to ensure consistency with County land use plans and land management policies, as required by law.
4. The Board supports maintaining and enhancing public access to public lands and national forests and opposes road closures, road decommissioning, moratoria on road construction, and other limitations on public access for the purpose of fulfilling the 30 x 30 program's objectives.
5. The Board recognizes and supports the State of Montana's water rights system, including the doctrine of prior appropriation and other state laws and programs governing water rights and

water use, and opposes any federal designation of waters and watercourses within the County that would impair or restrict water diversions and uses authorized under Montana law.

6. The Board supports reasonable national, regional, and global greenhouse gas emissions policies and goals that are comprehensive, practical, cost-effective, and do not unnecessarily single out specific industries or activities, but opposes the use of global climate change as an excuse to set aside large tracts of land as preserves or open space to fulfill the 30 x 30 program's objectives.
7. The Board maintains that the designation of public lands and national forest lands as wilderness, wilderness study areas, wildlife preserves, open space, or other conservation land to fulfill the 30 x 30 program's objectives may lawfully occur, if at all, only through the planning process mandated by the Federal Land Management and Policy Act (for public lands) or the National Forest Management Act (for national forest lands), including public notice and an opportunity to comment, analysis and disclosure of the impacts of such land acquisitions on the well-being, health, safety, welfare, economy, and culture of Pondera County, its businesses, and its citizens, and careful coordination with Pondera County to ensure consistency with County land use plans and land management policies.
8. The Board also maintains that any non-federal lands or other rights that are acquired to fulfill the 30 x 30 program's objectives should be acquired only from willing landowners and for the payment full and fair market value for all rights and interests acquired, and not through regulatory compulsion, and only after analyzing and considering the impacts of such land acquisitions on the well-being, health, safety, welfare, economy, and culture of Pondera County, its businesses, and its citizens.
9. The Board shall send a copy of this Resolution to the Department of Interior

Adopted this 19th day of May, 2021, as moved by Commissioner Kuka, seconded by Commissioner Morren, and passed on a 3-0 vote of the full board. Effective on passage and approval.
